

Reg. Vision Zero Trust (1st Floor, Plot G-2/ Block B-1, Mohan Industrial Estate, New Delhi, Delhi - 110044)

We are not hiring an employee. We are looking for a founder.

SATARK Pod Lead · one vertical, a hundred districts. If what you want is a job, stop reading here.

Crashfree India · A Cars24 Commitment · September 2026

Every year India records around five lakh road crashes and loses 1.7 lakh lives — a Boeing falling out of the sky every single day. Most of it is systemic, not accidental: violations detected, challans issued, and then nothing. Crashfree India is our long-term commitment to rebuild the systems that keep people safe — not a CSR project. SATARK is the system where we have already proven it works.

HOW SATARK WORKS

1 READ

ANPR cameras read every number plate — ~100m range

2 CHECK

Live government-record check: challans, insurance, PUC, fitness

3 ALERT

Officer is told which vehicle to stop, and why — in ~10 sec

4 INTERCEPT

Vehicle stopped · full audit trail · owner identity masked

5.4 lakh+

vehicles screened

₹53 Cr+

dues surfaced

600+

police interceptions

3 + 4

cities live + in install

Live: Jaipur · Bengaluru · Gurugram. Installing: Pune, Rajkot, Gandhinagar, Thiruvananthapuram. 100 Mn+ views on social. Figures: Sept 2026.

THE ROLE — BUILD AND RUN IT LIKE YOUR OWN COMPANY

- Take SATARK to the 100 highest-fatality districts by December 2027. Your pipeline, your targets, your map of India — written from zero.
- Sit across police commissioners, transport secretaries and ministries. Convince them, sign them, and stay until officers are stopping vehicles.
- A small team of one or two strong people with you, and Cars24's engineering, installation and funding behind you. Gurugram base, heavy travel.

WHO WE ARE LOOKING FOR

- You have run something of your own — a startup, a campaign, an organisation. Failed ones count; failure teaches patience.
- A genuine service instinct: officials can tell in minutes whether you care about road deaths or are closing a sale. You have to be believed.
- Two speeds, both fine — Rajkot signed in nine days, Pune took five months. Nobody hands you a plan on Monday.

If this pulls at you, send two things.

Your CV, and a 4–5 minute video: pick a problem India ignores and convince us it matters. Data, not polish.
